THE STORY

OBJECTIVE

After the Berwyn Police Department (PD) finished construction on their nearly renovated headquarters renovation, they needed to fill the space with attractive and functional cubicles for the team.

The Berwyn PD was most concerned with finding a company they can rely on with a sales team that was responsive and committed to getting them the perfect space.

Upon their first visit to Office Furniture Center, they were blown away by our unmatched inventory of value-priced furniture and with the time and care their sales rep, Grisell Feliciano, showed while working with them.

DESIGN & PRODUCT SELECTION

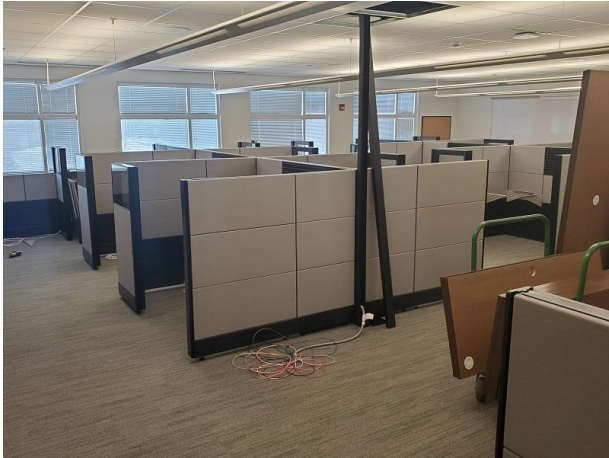

The first phase of the project consisted of evaluating the space and understanding the customers needs. Grisell set up a time to visit the updated headquarters to get site measurements, evaluate power, and get an overall feel for the aesthetics.. Grisell took the information back to the OFC Workstation Design team who then started to develop different layouts for the space.

The Berwyn PD team liked the look of the Herman Miller Ethospace system after Grisell explained all the features and benefits, especially with how easily it can be customized. Grisell collaborated with the OFC design team to create a customized solution that fit their space perfectly.

DELIVERY & INSTALLATION

Once the order was completed, the final step was to delivery & install the stations. The project took place over the course of two days and was finished on-time with no issues. With the thorough planning conducted by the OFC team, the workstations fit perfectly into the space. The project went off without a hitch!

The result was a beautiful set of workstations, perfectly suited for the facility and the team.

If you have a need to upgrade the furniture in your office, give us a call!

“The experiences in the showroom was excellent. Having the ability to choose colors and products was a great experience. The design team and quoting process was also very enjoyable and done in what I would consider a quick matter. The end result was exactly what we envisioned.”

-U/C Michael Fellows – Berwyn Police Department
